New York, New York 10022

Dear Sirs:

We are engaged in studies of the molecular biology of inflammation and are interested in inflammatory mediators as they may be induced by various substances including tobacco and foreign agents. We very much would like to support our studies and would like to have you send us information regarding requirements for a formal proposal.

Thank you for your interest and assistance.

Yours truly,

George H. Sack, Jr., M.D., Ph.D.  
Associate Professor of Medicine,  
Pediatrics and Biological  
Chemistry
